Neuro Logic manufactures a broad range of proprietary ruggedized CRT and Flat Panel video display products, touch-input displays, interactive video display systems and customized displays. Our product line addresses a range of applications including military, industrial, aerospace, automotive and transportation, interactive point of sale and point of information, education, and medical. Our mission at NLS is to provide innovative, quality display products featuring state-of-the-art technology at affordable prices with a total commitment to customer service and support. Our many satisfied customers include Fortune 500 companies like Alta Vista, Cisco, Intel, Sun Microsystems, KLA Tencor, TRW, General Dynamics, Lockheed, U.S. Army, Navy, Air Force, Marine Corp, Coast Guard and others. Neuro Logic also offers complete custom design, engineering and manufacturing.

**Exilis Terminal**
Because Space is Money

The RFT Line is a 1U high (1.75”) pull out tray equipped with a high resolution, wide viewing angle 15” or 17” LCDs. The unit is designed to fit in a standard 19” rack and to be slid out for use. Using the in your rack allows you to have more space and use your rack more efficiently. This unit was designed around military standards and because of the high quality metal construction, this unit can be used in almost all industrial and commercial setting. The low profile of this unit makes it ideal for racks that have space restrictions. 19”W x 24”D x 1.75”H.

- Entire unit only 1U (1.75”) high
- 15” and 17” TFT LCD
- Industrial 104 keyboard w/ 2-button touchpad
- LCD power-up when raised
- Several LCD locking positions
- Lock-down mechanism for LCD when not is use
- Large slide-out wrist rest
- Front recessed display controls
- NEMA sealed front option
- 2mm protective glass for LCD
- 1280 x 1024 max resolution
- Windows, Sun (1152 x 900) and Apple ready
Rackmount Flat Panels

The RF Product Line consists of 15” to 23.1” LCDs. These displays are housed in a ruggedized metal enclosures for rack mounting in a standard 19” RETMA equipment rack (9U high). The design resolves the conflicting requirements for a large, rugged, high resolution color display in compact, lightweight package.

- 15”, 17”, 18”, 19” 20’ and 23” screen sizes
- Forced air electronics ventilation
- 15-pin VGA or 5-BNC SOG
- Lock-out controls
- NEMA sealed display
- 160 degree viewing angle
- Up to 1600 x 1200 (80KHz) pixel resolution
- Optional Acoustic Wave and Resistive touchscreens

Rackmount Workstation

The RW-15 is a premium quality, high resolution 15” LCD equipped with a resistive touchscreen and mounted in a rackmountable metal enclosure sealed to NEMA 4/12 industrial standards. The RW-15 comes equipped with a industrial single-board computer or ATX motherboard featuring the latest processor, hard drive and memory requirements. Dual fan cooling is provided to permit operation to 50 deg Centigrade in demanding environments.

- 15” LCD
- Dual fan cooling
- Lock-out controls
- Completely enclosed housing
- Acoustic Wave & Resistive touchscreens
- Up to 1280x1024 screen resolution
- 15-pin VGA or 5-BNC
- NEMA 4/12 Display
- Various component options

Neuro Logic Systems serves a variety of industries and customers. Below are just a handful of customers that NLS works with:
